DESCRIPTION OF EPISODE/DAMAGE:				
On March 7, a 36 year old female in her condominium unit was exposed for approximately three (3) hours to Vikane (E.P.A. Reg. No. 62719-4) and chloropicrin warning agent. At approximately 3:00 p.m., fumigation company crew members onsite that were monitoring for Vikane equilibrium in the 30-unit building heard someone calling for help and attempting to exit the tarped structure. The woman allegedly had some personal items in a pillowcase and said she must have fallen asleep inside. She experienced symptoms of tearing eyes, mucus, and slight disorientation although she could speak and comprehend clearly. The licensee contacted 9-1-1 and the emergency responders arrived in less than 5 minutes. She was transported by the paramedics to Mercy Hospital Emergency Room in San Diego, where she died at approximately 5:40 p.m. The San Diego County Agricultural Commissioner's office is investigating the incident.
